Good evening Charles,

Supt Linskey has inquired as to trying to do an expedited analysis for the item listed below, I will get a lab number from the depository in the AM and forward it as well. It appears that this was a submission involving an incident at the Boston Latin School and the administration is trying to act quickly to send a strong message as students became ill from ingesting whatever was in the brownies.

Thanks

Hi Dan-

Thanks again for offering to look into expediting the lab report on our recent incident at BLS. The date of the incident was 5/28/09 and the complaint no. [REDACTED] The brownies were logged into district 2 drug book 141 page 9 and secured in the B-2 drug safe.

I would appreciate any support you can provide, as I intend to hold expulsion hearings for both young men which requires the lab report.

Thanks again.
